PROFILE

- ✓ Senior Graphic & UI Designer (12+ years) specializing in game UI, visual systems, and end-to-end art ownership for live mobile titles, including a full tower defense product from concept to release.
- ✓ Contributed to globally shipped games with 50M+ downloads, delivering production-ready UI and visual systems at scale.

EXPERIENCE

Tactile Games

UI Designer | Contract | Remote

Jan 2024 - Jun 2025

- Built an internal Unity “Slicer” tool that automatically converts UI designs into engine-ready sprites, reducing UI preparation time from ~15 minutes to ~10 seconds per task and eliminating manual slicing in Live Ops workflows.
- Introduced and established AI-assisted creation pipelines that became core, day-to-day production tools, accelerating iteration and supporting frequent content updates at scale.
- Delivered scalable UI components and visual assets integrated directly into a live mobile game, improving developer handoff and shortening iteration cycles on updates.

Mobination Games

Lead Artist | Freelance | Remote

Nov 2021 - Dec 2023

- Owned end-to-end visual production of a tower defense game, defining art direction, UI systems, and visual consistency from concept through final in-game implementation (solo art ownership).
- Delivered a complete, production-ready visual package, covering UI/UX, gameplay visuals, 2D & 3D assets, animation, VFX, and promotional materials.
- Established a structured art and UI pipeline, enabling rapid iteration and reliable delivery.

Huuuge Games

Graphic Designer - Animator | Contract | Remote

Nov 2020 - Mar 2021

- Designed and animated 2D UI and visual assets for a custom slot game within a regulated social casino environment.
- Applied 3D-to-2D workflows to produce and animate optimized 2D assets, improving visual consistency and production efficiency.
- Delivered compliant, production-ready UI and animation assets within strict technical, visual, and regulatory constraints.
- Integrated rapidly into proprietary, machine-driven production pipelines and workflows.

Den of Imagination

3D Sculptor - Collectibles | Freelance | Remote

Jun 2020 - Aug 2020

- Delivered print-ready collectible character sculptures, meeting strict quality standards for form, detail, and structural integrity under tight deadlines and rapid iteration cycles.

Global Attractions Ltd

Mural Artist | Contract

Nov 2015 - May 2019

- Designed and executed large-format wall graphics and murals directly on-site for indoor attractions.

AT Advertising Agency Graphic Designer Contract	Oct 2014 - Nov 2015
---	---------------------

- Awarded 2nd place in a regional client tender with an independently developed design concept.
- Secured leadership approval and delivered a corporate interior mural, strengthening brand identity and team engagement.

European Commission Project Coordinator - Graphic Designer Contract	Sep 2013 - Aug 2014
---	---------------------

- I led and coordinated an EU-funded employment project, developing custom tools and a cohesive brand identity.

Teyon Graphic Designer - Animator Contract	Jan 2012 - Jan 2013
--	---------------------

- Produced and animated 2D cutscenes for a hidden-object game, delivering narrative-driven visual sequences.

ComAngle Entertainment Junior Game Artist - Animator Freelance	Jan 2011 - Dec 2011
--	---------------------

- Designed and delivered end-to-end visual production for 10 playable arcade mini-games, creating cartoon-style UI, characters, backgrounds, interactive assets, and complete animation sequences.

TOOLS

Design Systems & UI	Design Systems, Component Libraries, UI Architecture, Figma (Advanced), Prototyping, Auto-layout, Responsive UI, Photoshop (Advanced), Illustrator (Advanced)
Game UI / Engines	Unity UI (UGUI), Sprite Atlases, Sprite Optimization, UI Implementation, Engine Constraints Awareness
Performance & Mobile	UI Performance, Mobile Performance, Draw Call Reduction, Resolution Scaling, iOS / Android Constraints
2D / 3D & Sculpting	ZBrush (Advanced), Blender (Intermediate), 3D-to-2D Pipelines, High-to-Low Optimization, Print-ready Assets
Animation & Motion	Spine (Advanced), After Effects (Intermediate), UI Animations, Micro-interactions, Game-ready Motion
Live Ops & Production	Live Ops Tooling, Content Updates, Rapid Iteration, Versioned Asset Delivery
AI / Tooling	AI-assisted Workflows, Automation-driven Pipelines, Cursor, VS Code, Runway, Stable Diffusion

EDUCATION

Southampton Solent University	Fine Arts (BA)	Sep 2007 - Jun 2009
Southampton Solent University	Illustration (BA)	Sep 2005 - Jun 2007
London Middlesex University	Art & Design (Foundation)	Sep 2004 - Jun 2005
